"Pet owners have no idea what dangers lurk in their cat's litter box from toxic ammonia fumes," said Halligan. "This is especially serious for cats and their owners with asthma, upper respiratory infections, and compromised immune systems. Lucy Pet Cats Incredible™ litter, with its new exclusive patent-pending formula, actually stops ammonia from forming in the litter box."

Don't miss Lucy Pet Foundation Founder, Joey Herrick discussing ways to prevent pet overpopulation. Also on hand to discuss ways to prevent pet over-population is Lucy Pet Foundation Founder Joey Herrick. "We are very excited to be part of this event and to share our message to spay and neuter your pets to help prevent the over-population of dogs and cats. There are far too many pets per week being euthanized in this country. It's time this practice came to a halt, said Herrick."
